Need to plan for
the extension of
HWY 23 north to
Broadway Rd from
where HWY 23 turns
east and becomes
FWY 118. Needs to
be mapped for future funding

Plan for The
North Hills Parkway
to carry traffic

Small Lots - (2 Homes - Duplex allowed +)
2500 - 4000 sq ft

Reduce infrastructure costs / Water usage.
Increases affordability because allows builders
to build more homes that have prices
achievable by people with good paying jobs. This
would allow homes to be able to be purchased by
people downsizing, families, people starting out.
Allow more structure on each lot. Reduce Set back
requirements.

Increase height limitations on all structures (IS
you can't go out (SOAR) must go up T.

Safety & Noise Comments

- Higher noise levels along 23/118 corridors. ✓✓
→ truck traffic
- Concern about flooding along the Arroyo.

Is there anyway
the city can put
some regulations on
weed smoking.
Too much weed
pollution
around my dwelling.

- No vegetation within 5 feet to ensure defensible space.

- Ability for mass evacuation in an emergency (wildfire)

↳ timing

↳ Solution: Widening Moorpark Road S. after YMCA

↳ ~~SR-23~~ SR-23 North

↳ Widening Princeton

- New evacuation route: E. Spring road
to
Campus Park
N. of Princeton

- Water + housing

- Concern about rail line noise

- Homeless trash near Arroyo in flood zone

Work force housing, should be different than Subsidized affordable house (Litec) Litec is not Workforce Housing.

Conversion of office space to housing. Convert Retail to mixed use. Flex zoning would be helpful to streamline development process in the City.

Height limitations are too low, lot coverage ratios too narrow
